Type of assessment: RdSAP, existing dwelling
Total floor area: 101 m²

Use this document to:

- Compare current ratings of properties to see which properties are more energy efficient
- Find out how you can save energy and money by installing improvement measures

Estimated energy costs of dwelling for 3 years:	£3,099
Over 3 years you could save	£789

Estimated energy costs of this home

	Current costs	Potential costs	Potential future savings
Lighting	£210 over 3 years	£156 over 3 years	
Heating	£2,595 over 3 years	£1,962 over 3 years	
Hot Water	£294 over 3 years	£192 over 3 years	
Totals	£3,099	£2,310	

These figures show how much the average household would spend in this property for heating, lighting and hot water. This excludes energy use for running appliances like TVs, computers and cookers, and any electricity generated by microgeneration.

Energy Efficiency Rating

The graph shows the current energy efficiency of your home.

The higher the rating the lower your fuel bills are likely to be.

The potential rating shows the effect of undertaking the recommendations on page 3.

The average energy efficiency rating for a dwelling in England and Wales is band D (rating 60).

Top actions you can take to save money and make your home more efficient

Recommended measures	Indicative cost	Typical savings over 3 years	Available with Green Deal
1 Internal or external wall insulation	£4,000 - £14,000	£273	
2 Floor insulation	£800 - £1,200	£78	
3 Low energy lighting for all fixed outlets	£15	£45	

See page 3 for a full list of recommendations for this property.

To find out more about the recommended measures and other actions you could take today to save money, visit www.direct.gov.uk/savingenergy or call 0300 123 1234 (standard national rate). When the Green Deal launches, it may allow you to make your home warmer and cheaper to run at no up-front cost.
